

SDG Showa Denki Group

Showa Denki Group is an environmental improvement equipment manufacturer such as air blowers, environmental equipment, and dust collectors; and is an engineering company which provides "LEOS (Little bit Engineering Of Showa denki)" to solve workshop's spot of the trouble. In addition to product manufacturing, we are also an engineering group that solves your spot of trouble by flexibly combining our products and peripheral equipment. Create a safe and comfortable workspace.
